Hi Mary,

Thanks for the heads up on your next community update and the opportunity to provide feedback. I think these can be very helpful and appreciate your work to develop and deliver them.

For this one, my only suggestion would be to remove or change some language under the NPL status column:

- "Listing the site does nothing for progress at this time." - To me, it reads to be more of a position, not a fact. The brochure states that it is an information piece. Without this sentence, the paragraph still makes the point and remains informative. Recommend removal.
- "... to keep moving forward to prevent this site from unnecessarily becoming the 17th final NPL site in Montana." I think this part of the sentence sounds a little position-based and better if left out so that it reads, "It can also be time spent by all parties working cooperatively."

That's my 2 cents. I hope it is helpful. Thanks Mary.

Subject: CFAC Community Update
Importance: High

Mike and Robert,

I hope your day is going great.

Please find attached to this email the community update we plan to mail. It promotes the site tour and will be printed and mailed by a vendor we use for that service. To meet the printer's deadline, we will be sending it to them Thursday, March 28, at noon. Should you have any feedback, please let me know before that time.

In addition to this mailing, the panel was sent a postcard with the tour date and were encouraged to invite others. We also will post it on our website, as well as issue a press release and place information in the activities section of the newspaper.

Much thanks,
Mary
